Rx30 Delivery / SignRx / Rx30 Inventory

Pharmacy Purchase Agreement

(Rx30's iPad Delivery, Drive-Thru / Signature and Inventory Solutions)

Rx30 is pleased to introduce our newest additions to our developing suite of mobile pharmacy product applications. Immediately available are: 'Rx30 Delivery' for mobile deliveries, 'SignRx' for drive-thru window signatures, and 'Rx30 Inventory' for wireless inventory control.

Rx30 Delivery is an iPad mobile delivery application designed to provide electronic delivery functionality; replacing traditional logging and paper manifest requirements associated with the delivery process. Rx30 Delivery utilizes wireless functionality to collect, maintain and process necessary delivery requirements associated with pharmacy deliveries.

SignRx provides wireless iPad connectivity with your Rx30 Pharmacy system for signature collection, transmission, and storage.

Rx30 Inventory provides wireless connectivity with your Rx30 Pharmacy System for secure wireless updating of quantities on hand.

Activation of the Rx30 Delivery / SignRx requires:

- 1) Rx30 Delivery / SignRx support iPad 2, 3, 4, mini (or later). Rx30 Inventory supports iPad 2, 3, 4, mini (or later). **Purchase of the iOS device is the responsibility of the end user. A secure wireless access point or router is required. ALL applications can be used on ONE iOS device.**

To acquire these apps: Go to the App Store on your iOS device and search the name of the app ("Rx30 Delivery", "SignRx", or "Rx30 Inventory"). You should see the app by TDS Operating, Inc. in the results.

NOTE: Each application is **EXCLUSIVE to the Rx30 Pharmacy Management System** and will not function with other software providers.

- 2) Once you purchase and download any of the apps you'll see the app on your device's screen.

- 3) The Support fees are as follows:

Rx30 Delivery App:	\$20 / month
SignRx App:	\$10 / month
Rx30 Inventory:	\$10 / month

By way of signing and returning this agreement, end user acknowledges and accepts support terms.

- 4) Once TDS Operating, Inc. (Rx30) receives this agreement, enrollment staff will activate your Rx30 license within 24 hours, at which time you'll be able to immediately begin use of the appropriate application within Rx30. Please contact Rx30 support should you have any questions or concerns with installation and/or product usage.
- 5) Should Rx30 Delivery, SignRx, or Rx30 Inventory not meet your specific mobile application requirements and you wish to terminate the agreement, Rx30 will immediately suspend your further support fee requirements going forward. Please take the time to review all of the product details and demonstrations to ensure that the product matches your specific requirements.

Rx30 is pleased to introduce this latest offering as part of our continued commitment to bring advanced mobile application tools for the independent pharmacy market that we serve. We have created multiple learning tools to help you learn and understand product functionality. We hope you find these new applications beneficial for both you and the customers you serve.
